

On page 2, line 16, delete "the operate the aircraft" and insert --the operator of the aircraft--.

On page 3, line 3, delete "fight" and insert --flight--.

On page 5, line 12, delete "figure further illustrates" and insert -- figures further illustrate--.

On page, line 3, delete "4c" and insert --4d--.

In the abstract:

Please amend the abstract as follows:

On page 30, please delete lines 2-13 and insert the following:

--Systems, apparatus, and methods are shown for entering data into a flight plan entry field to facilitate the display and editing of aircraft flight-plan data. A method is provided for entering multiple waypoint or procedural identifiers and thereafter relating the identifiers with an aircraft flight management system to anticipate the complete text of the entry for display. Also disclosed is a method for automatically providing the aircraft operator with a selectable prioritized arrival and approach routing identifiers by a single manual selection, and a method for providing the aircraft operator with selectable alternate patterns to a new runway.--

In the claims:

Please amend the claims as follows:

1. (Amended) A method for entering data into an aircraft flight management system having a computer means, the computer means communicating with a
